ARTICLE XXXVII
DRUG AND ALCOHOL POLICY

A. EDUCATION:

The Cherry Hill Fire District #13 shall implement and continue to use an educational program which addresses all current substance abuse related issues. This educational program shall be scheduled at sufficient intervals to ensure that not only are the goals of the negotiated policy met, but that all Union members are familiar with the issues, problems and current trends of thought concerning contemporary substance abuse.

B. STANDARD FOR TESTING:

The Fire Director/Chief or his designee, based upon individualized and particular suspicion, may require that a member submit to substance screening by urinalysis which shall be administered by a competent testing laboratory. Such testing laboratory is to be a member of the National Institute for Drug Abuse. "Individualized and particular suspicion" is a belief based upon objective and identifiable facts sufficient to lead a prudent member to suspect that an employee is using, in possession or control of, or is under the influence of drugs or alcohol while on duty; and such conclusion cannot be imputed to any employee merely because of his/her association with another employee who is believed to be in use, possession or control of, or under the influence of drugs or alcohol while on duty. Examples include, but are not limited to the following:

1. Direct observation of drug/alcohol use while on duty.
2. Member found to be in possession of alcohol/drugs while on duty;
3. Spontaneously unusual, abnormal, erratic, or unacceptable behavior, or behavior which otherwise indicates that the member is under the influence of an intoxicating substance (e.g., the presence of bloodshot eyes, glassy eyes, slurred speech, lack of coordination, or other indications of intoxication or substance abuse);
4. Documented pattern of unusual, erratic or unacceptable behavior;

5. A major on-duty accident with or without injuries; and
6. Reporting for work unfit for duty.

C. RANDOM DRUG TESTING:

The Cherry Hill Fire District #13 shall not administer random drug and/or alcohol testing, which term is defined as compulsory testing prompted for reasons other than individualized and particular suspicion discussed above, except in the following instances:

1. A drug/alcohol test shall be conducted as a component of pre-employment physical. The presence of illegal drugs shall constitute a basis for the applicant to be bypassed.

2. Probationary EMT's, defined as not having a full year of seniority, shall be subject to testing at any time during their probationary period. A confirmed positive test result may be grounds for termination.

3. Applicants seeking reinstatement to the Department, after resignation or termination, shall be subject to testing as a condition of re-employment.

4. Permanent EMT's on leave of absence for thirty (30) days or more may be tested upon his/her return to duty. This provision excludes those members whose placement on leave of absence was prompted by illness or injury not otherwise associated to alcohol and/or drug abuse.

5. A Union member may also be testing as part of a random testing program instituted as a result of prior drug and/or alcohol related disciplinary proceedings for a period not to exceed one (1) year.

D. MASS DRUG TESTING:

1. The Cherry Hill Fire District #13 shall not administer mass drug and/or alcohol testing, which term is defined as compulsory testing of all Department members or all members within an identified job classification/title/rank, without affording the Union thirty (30) days advance notice which shall be in writing effective the date received by the Union. Such testing must be administered in context with comprehensive physical examinations given to all Department members. Mass testing for drug and/or

alcohol abuse alone shall not be permitted.

2. Members promoted to the next higher rank will submit and pass a drug screen prior to being promoted.

E. PROCEDURE.

1. GENERAL PROVISIONS. It is the responsibility of all Department officers to see that all members under their direct command are fit for duty. If at any time they develop an individualized and particular suspicion that someone in their command is under the influence of drugs and/or alcohol, he/she shall:

a. Temporarily relieve (with pay) the suspected individual of all duties pending the outcome of further investigation.

b. Immediately contact the next higher rank and inform him/her of his/her actions and suspicions. That rank shall respond to the location of the suspected individual and begin her/her own evaluation.

c. If at the end of the second evaluation it is determined that an individualized and particular suspicion exists, or if either office is not in agreement with the other, the Assistant Chief shall be notified and he shall continue the investigation. If the suspected individual is an officer and the Battalion and Assistant Chiefs cannot agree, the Chief of Department shall make a determination. In any case, two (2) chief offices must agree that an individualized and particular suspicion exists in order for a member to be tested.

d. The Chief of Department, or his designee in his absence, shall be notified prior to any testing of the suspected individual. If he cannot be reached, the authority rests with the Assistant Chief.

e. After all steps outlined above have been satisfied, the suspected individual shall be transported to the Medical Facility as designated by the Fire District for testing.

f. That member shall be relieved from duty (with pay) for the remainder of the work day. He/she shall call someone to come pick him/her up at the conclusion of the test.

g. If member tests positive he shall not be paid for the work day.

h. All officers involved in the decision making process aforesaid, whether they concurred or dissented from the conclusion that an individual exhibited individualized and particular suspicion warranting drug and/or alcohol testing, shall write the specific facts, observed symptoms, and/or other bases which prompted their respective conclusions.

i. If the results of the test are negative, no record of this incident shall be made a part of the member's file or used as evidence of a prior incident, if that members tests positive at a later date. The same applies if two chief officers cannot agree that an individualized and particular suspicion exists and no test is given.

2. EMPLOYEE ASSISTANCE PROGRAM. The Department, working in cooperation with the Union, shall maintain an Employee Assistance Program (hereinafter "E.A.P.") which is for the benefit of all members. Voluntary participation, which is participation because a member believes he/she may benefit by attending programs of the E.A.P., is confidential and is at the option of the member. The Assistant Fire Director/Chief shall act as a liaison for the Department personnel in conjunction with the E.A.P.

3. POSITIVE TEST RESULTS: The following defines the procedure and consequences to be followed by the Fire District when particular suspicion is concluded warranting drug and/or alcohol testing.

a. Testing Procedure at Medical Facility as designated by the Fire District. The member, having met the conditions of individualized and particular suspicion, shall be transported to medical facility designated by the Fire District for testing. There, someone from the medical staff shall direct the employee in providing a urine sample, and this staff representative shall be responsible for insuring chain of custody involving the provided sample. A member may, and should see that a second sample be given and stored in case he/she wishes to appeal the finding the first test. A screening test shall be conducted to determine the presence of drugs and/or alcohol. If such test is positive, a confirmation test shall be performed to identify the exact test results. The member may, at his/her own expense, request the second sample be sent to

an independent laboratory for testing. The results of that test shall be his/her basis for appealing the results of the first test. The member shall have complete and sole discretion as to the selection of the second/independent laboratory provided, however, same is a member of the National Institute for Drug Abuse. The results of the member's second/independent test shall be provided to both the member and the Department. No unconfirmed positive tests, or records pertaining to same, shall be released or retained by the laboratory.

b. Consequences of Positive Test Results. Should the test results prove positive, and the member has never attended (either on a voluntary or involuntary basis) an in-patient drug rehabilitation program, the member shall be afforded opportunity to enroll in a Department approved program. Should the member successfully complete the in-patient rehabilitative program offered, he/she shall be returned to full duty and regular assignment. The member shall, however be referred to the E.A.P. coordinator, for a period not exceeding one (1) year, and comply with such directives as may reasonably be prescribed by the E.A.P. coordinator. During this one year period following release from the in-patient rehabilitation program, the member shall be subject to periodic and unannounced testing. If after successfully completing an in-patient rehabilitative program and the member again tests positive for drugs/alcohol, he/she shall be deemed as being beyond rehabilitation posing a threat to the health and safety of other Departmental members. The Union recognizes that, consistent with judicial and administrative decision, the individual may be terminated from service with the Department by the Fire District.

4. REHABILITATIVE ABSENCE.

Members of the Department who will benefit from treatment on an in-patient basis in a rehabilitative substance abuse program shall be entitled to be carried as sick without loss of pay for a maximum of thirty (30) days, provided the member agrees to and signs the substance abuse agreement mutually agreed upon by the Association and Fire District and provided the employee has thirty (30) days sick time.

5. ALCOHOL TESTING.

A breathalyzer or similar testing equipment shall be used to screen for alcohol use and if positive, shall be confirmed by a blood alcohol test performed by the laboratory. This screening test shall be performed by an individual qualified through and utilizing equipment certified by the New Jersey State Police. An initial positive alcohol level shall be .10 grams per 210 L. Of breath. If initial testing results are negative, testing shall be discontinued, all samples destroyed, and records of the testing expunged from the employee's file. Only specimens identified as positive on the initial test shall be confirmed using a blood alcohol level. The same sampling procedures as utilized in motor vehicle testing shall be followed. A positive blood alcohol level shall be .10 grams per 100 ml of blood. If confirmatory testing results are negative, all samples shall be destroyed and records of the testing expunged form the employee's file.

6. DRUG TESTING. The laboratory shall test for only the substances and within the limits for the initial and confirmation tests as provided within standards established by the National Institute of Drug Abuse. The initial test shall use an immunoassay which meets the requirements of the Food and Drug Administration for commercial distribution. The following initial cut-off level shall be used when screening specimens to determine whether they are negative for these five (5) drugs or classes of drugs:

Marijuana Metabolites	50 mg/ml
Cocaine Metabolites	300 mg/ml
Opiate Metabolites	2000 mg/ml ¹
Phencyclidine	25 mg/ml
Amphetamines	1000 mg/ml

If initial testing results are negative, testing shall be discontinued, all samples destroyed and records of the testing expunged from the employee's file. Only specimens identified as positive on the initial test shall be confirmed using gas chromatography/mass spectrometry (GC/M.S.) techniques at the following

7. TESTING PROGRAM COSTS:

The Fire District shall pay for all costs involving drug and alcohol testing. The Fire District shall also reimburse each employee for their time and expenses, including travel, incurred involved in the testing procedure.

The Department will provide transportation to and from the testing procedure.

8. EFFECTIVE DATE AND APPLICATION OF AGREEMENT.

The procedures and understandings incorporated within the contractual Agreement shall become effective immediately upon acceptance by the Fire District and Union as memorialized by the parties affixing their signatures.

a. Past Records of Drug Involvement and/or Alcohol Abuse.

With the exception of those employees who already have signed "Last Chance Agreements", no involvement with drug rehabilitation clinics or positive testing results occurring prior to the effective date of this contractual Agreement shall be referenced by the Fire District in proceedings after the ratification of this Agreement, it being the intent of the parties to provide all employees with clear

Any Department rules/regulations implemented in accord with and/or expoundment upon this contractual Agreement shall be submitted to the Union for collaboration and approval prior to enforcement.

c. Effect of Agreement. This contractual Agreement supersedes all past practices and contractual agreements developed between the Fire District and Union involving alcohol and/or drug testing.

d. Right of Appeal. The employee has the right to challenge the results of the drug and/or alcohol tests, and any discipline imposed, in the same manner that any other employee action under the terms of the Agreement is appealable.

e. Union Held Harmless. The contractual Agreement was initiated at the request of the Fire District. The Department assumes sole responsibility for the administration of this policy and shall be solely liable for any legal obligations and costs arising out the provisions and/or application of this contractual Agreement relating to drug and alcohol testing. The Union shall be held harmless of the violation of any workers' rights arising from the administration of the drug and alcohol testing program.

f. Changes in Testing Procedures. The parties recognize that during the life of this contractual Agreement, there may be improvements in the technology of testing procedures which will provide for more accurate testing. In that event, the parties will bargain, in good faith, whether to amend this procedure to include such improvements. If the parties are unable to agree on the amendments, they will be submitted to impasse procedures as outlined in the Grievance Procedure of the Agreement.
