1. Each employee will be scheduled to work three (3) twenty-four (24) hour tours of duty within a nine (9) day work cycle. It is mutually agreed that the schedule of work day assignments shall provide each employee with the following pattern of duty tours: One (1) twenty-four hour tour of duty; followed by one (1) twenty-four (24) hour day off period; followed by a second twenty-four (24) hour tour of duty; followed by a second twenty-four (24) hour day off period; followed by a third twenty-four (24) hour tour of duty; followed by four (4) twenty-four hour days off period. It is mutually understood that the Fair Labor Standards Act requires employers to pay overtime compensation to employees in fire suppression service when more than two hundred four (204) hours are worked within a twenty-seven (27) day work period. To avoid such overtime mandate, the parties further agree that the Fire Chief or his designee will schedule an employee to a tour of duty of less than twenty-four (24) hours within any such twenty-seven (27) day work period. Employees will continue to receive weekly pay computed without reference to the actual hours worked under this schedule arrangement, and the weekly pay shall be computed on a yearly average basis with increment only for overtime. Meal and break time are included within the twenty-four (24) hour tour of duty.

2. Employees required to work more than seventy-two (72) hours within a nine (9) day work cycle or required to work more than twenty-four (24) hours within a forty-eight (48) hour time span or required to work on any day inconsistent with the duty pattern referenced in paragraph no. 1 supra, with the exception of a scheduled platoon transfer shall be afforded the option to receive either premium pay or compensatory time as compensation, therefore, which election shall exclusively be made by the employee, computed at a rate of time and one half ($1\frac{1}{2}$) for each hour worked. Notification of said decision is to be made at the time of the occurrence. Overtime pay or compensatory time owed to the employee who is working a 24 hour shift on a 53 hour work week shall be computed by reference to the hourly rate computed on 2,904 hours and for the employee who is working a 40 hour work week shall be computed by reference to the hourly rate computed on 2,080 hours. The rate of pay used at retirement and separation purposes for all employees shall be computed on 2,080 hours.[At retirement the 53 hour and 40 hour employee are made equal by using the 1.8 conversion factor].The hourly rate of 2904 hours becomes effective at the signing of the contract and is non retroactive.
3. Scheduled platoon transfers will occur annually in the month of January. Platoon transfers will be accomplished in the following manner:
 - a. The transfer can't result in back to back shifts.
 - b. The transfer will be done over the 4 day break.
 - c. The member will start the new platoon on the 3rd or 4th day of the break.

d. Administrative days to maintain the 204 hours in the 27 day cycle are assigned after the transfer by the Field Command Office in conjunction with staffing. PTO days approved prior to any transfer notice will not be counted in the transfer adjustment days. This does not preclude the department from transferring personnel due to promotion, retirement, platoon balancing and personnel enrichment. Platoon vacancies that would require platoon balancing are as follows:

- Resignation/Retirement
- FMLA for 3 or more shifts
- IOD for 3 or more shifts
- Light Duty for 3 or more shifts

4. Employees may be recalled to duty and shall be compensated for such recall by either premium pay or compensatory time computed at a rate of time and one half (1 1/2) which election shall exclusively be made by the employee. Employees shall be paid a minimum of two (2) hours, regardless of actual time recalled to duty. Fire Officers will be listed by seniority in Grade by Platoon. A list of all Officers with their permanent rank and appointment date will be promulgated by the Board.

5. Compensatory time earned must be utilized on or before the end of the calendar year in which it is earned. If any employee has any compensatory time accumulated at the end of the year, he or she shall be paid for such time at his or her rate of pay the last pay period in the year.

6. An employee shall be entitled to utilize earned and/or accumulated compensatory time at any date(s) of his or her election with the approval of the Fire Chief or such other individuals designated by the Board in writing to perform such task, which approval shall not be unreasonably withheld. An employee who elects to receive premium pay in lieu of compensatory time shall receive such pay within the pay period the overtime occurred or the following pay period.
7. All compensatory time earned and (grandfathered by District #13) prior to January 1, 1994 shall be utilized by the employee, with the consent of the Fire Chief or his designate during the life of the Agreement. At no time shall the Fire District be liable to compensate the employee monetarily for said grandfathered compensatory time unless the Fire Chief cannot or does not grant the employee his/her grand fathered compensatory time off during the life of this Agreement.
8. An employee shall receive no overtime compensation for the first fourteen (14) minutes of overtime per week. Upon attaining fifteen (15) minutes of authorized overtime in a week, the employee shall be compensated for all overtime worked that week. Overtime compensation shall be compensated in fifteen (15) minute intervals thereafter.
9. The Fire Marshal and Safety Officer will earn five (5) hours of compensatory time per month for stand by time.
10. Back-up Safety Officers will compile their coverage hours and once they accumulate one hundred eighteen (118) hours they will receive five (5) hours of compensatory time.

B. STANDARD FOR TESTING:

The Fire Chief or his designee based upon individualized and articulated suspicion may require that a member submit to substance screening by urinalysis which shall be administered by a competent testing laboratory. Such testing laboratory is to be a member of the National Institute for Drug Abuse. "Individualized and articulated suspicion" is a belief based upon objective and identifiable facts sufficient to lead a prudent member to suspect that an employee is using, in possession or control of, or is under the influence of drugs or alcohol while on duty; and such conclusion cannot be imputed to any employee merely because of his/her association with another employee who is believed to be in use, possession or control of, or under the influence of drugs or alcohol while on duty. Examples include, but are not limited to the following:

1. Direct observation of drug/alcohol use while on duty.
2. Member found to be in possession of alcohol/drugs while on duty;

3. Applicants seeking reinstatement to the Department, after resignation or termination, shall be subject to testing as a condition of re-employment.

D. MASS DRUG TESTING:

The Cherry Hill Fire District #13 shall not administer mass drug and/or alcohol testing, which term is defined as compulsory testing of all Department members or all members within an identified job classification/title/rank, without affording the Union thirty (30) days advance notice which shall be in writing effective the date received by the Union. Such testing must be administered in context with comprehensive physical examinations given to all Department members. Mass testing for drug and/or alcohol abuse alone shall not be permitted.

1. Members promoted to the next higher rank will submit and pass a drug screen prior to being promoted.

E. PROCEDURE.

1. GENERAL PROVISIONS: It is the responsibility of all Department officers to see that all members under their direct command are fit for duty. If at any time they develop an individualized and articulated suspicion that someone in their command is under the influence of drugs and/or alcohol, he/she shall:

- a. Temporarily relieve (with pay) the suspected individual of all duties pending the outcome of further investigation.
- b. Immediately contact the next higher rank and inform him/her of his/her actions and suspicions. That rank shall respond to the location of the suspected individual and begin her/her own evaluation.
- c. If at the end of the second evaluation it is determined that an individualized and articulated suspicion exists, or if either office is not in agreement with the other, the Assistant Chief shall be notified and he shall continue the investigation. If the suspected individual is an officer and the Battalion and Assistant Chiefs cannot agree, the Fire Chief of Department shall make a determination. In any case, two (2) chief officers must agree that an individualized and articulated suspicion exists in order for a member to be tested.
- d. The Fire Chief of Department, or his designee in his absence, shall be notified prior to any testing of the suspected individual. If he/she cannot be reached, the authority rests with the Assistant Fire Chief.
- e. After all steps outlined above have been satisfied, the suspected individual shall be transported to the Medical Facility as designated by the Fire District for testing.
- f. That member shall be relieved from duty (with pay) for the remainder of the work day. He/she shall call someone to come pick him/her up at the conclusion of the test.

- g. If member tests positive he/she shall not be paid for the work day.
 - h. All officers involved in the decision making process aforesaid, whether they concurred or dissented from the conclusion that an individual exhibited individualized and articulated suspicion warranting drug and/or alcohol testing, shall write the specific facts, observed symptoms, and/or other bases which prompted their respective conclusion.
 - i. If the results of the test are negative, no record of this incident shall be made a part of the member's file or used as evidence of a prior incident, if that member tests positive at a later date. The same applies if two (2) chief officers cannot agree that an individualized and articulated suspicion exists and no test is given.
2. EMPLOYEE ASSISTANCE PROGRAM: The Department, working in cooperation with the Union, shall maintain an Employee Assistance Program (hereinafter "E.A.P.") which is for the benefit of all members. Voluntary participation, which is participation because a member believes he/she may benefit by attending programs of the E.A.P., is confidential and is at the option of the member. The Assistant Fire Chief shall act as a liaison for the Department personnel in conjunction with the E.A.P.
3. POSITIVE TEST RESULTS: The following defines the procedure and consequences to be followed by the Fire District when articulated suspicion is concluded warranting drug and/or alcohol testing.

a. Testing Procedure at the Medical Facility as designated by the Fire District. The member, having met the conditions of individualized and articulated suspicion, shall be transported to the Medical Facility designated by the Fire District for testing. There, someone from the medical staff shall direct the employee in providing a urine sample, and this staff representative shall be responsible for insuring chain of custody involving the provided sample. A member may, and should, ask that a second sample is given and stored in case he/she wishes to appeal the finding of the first test. A screening test shall be conducted to determine the presence of drugs and/or alcohol. If such test is positive, a confirmation test shall be performed to identify the exact test results. The member may, at his/her own expense, request the second sample be sent to an independent laboratory for testing. The results of that test shall be his/her basis for appealing the results of the first test. The member shall have complete and sole discretion as to the selection of the second/independent laboratory provided, however, same is a member of the National Institute for Drug Abuse. The results of the member's second/independent test shall be provided to both the member and the Department. No unconfirmed positive tests, or records pertaining to same, shall be released or retained by the laboratory.

b. Consequences of Positive Test Results. Should the test results prove positive, and the member has never attended (either on a voluntary or involuntary basis) an in-patient drug rehabilitation program, the member shall be afforded opportunity to enroll in a Department approved program. Should the member successfully complete the in-patient rehabilitative program offered, he/she shall be returned to full duty and regular assignment. The member shall, however, be referred to the E.A.P. coordinator, for a period not exceeding one (1) year, and comply with such directives as may reasonably be prescribed by the E.A.P. coordinator. During this one (1) year period following release from the in-patient rehabilitation program, the member shall be subject to periodic and unannounced testing. If after successfully completing an in-patient rehabilitative program and the member again tests positive for drugs/alcohol, he/she shall be deemed as being beyond rehabilitation posing a threat to the health and safety of other Departmental members. The Union recognizes that, consistent with judicial and administrative decision, the individual may be terminated from service with the Department by the Fire District.

4. REHABILITATIVE ABSENCE.

Members of the Department who will benefit from treatment on an in-patient basis in a rehabilitative substance abuse program shall be entitled to be carried as sick without loss of pay for a maximum of thirty (30) days, provided

the member agrees to and signs the substance abuse agreement, a copy of which is annexed hereto as Attachment "A" and provided he has 30 days sick time.

5. ALCOHOL TESTING.

A breathalyzer or similar testing equipment shall be used to screen for alcohol use and if positive, shall be confirmed by a blood alcohol test performed by the laboratory. This screening test shall be performed by an individual qualified through and utilizing equipment certified by the New Jersey State Police. An initial positive alcohol level shall be .08 grams per 210 L. of breath. If initial testing results are negative, testing shall be discontinued, all samples destroyed, and records of the testing expunged from the employee's file. Only specimens identified as positive on the initial test shall be confirmed using a blood alcohol level. The same sampling procedures as utilized in motor vehicle testing shall be followed. A positive blood alcohol level shall be .08 grams per 100 ml of blood. If confirmatory testing results are negative, all samples shall be destroyed and records of the testing expunged from the employee's file.

6. DRUG TESTING. The laboratory shall test for only the substances and within the limits for the initial and confirmation tests as provided within standards established by the National Institute of Drug Abuse. The initial test shall use an immunoassay which meets the requirements of the Food and Drug Administration for commercial distribution. The following initial cut-off level

shall be used when screening specimens to determine whether they are negative for these five (5) drugs or classes of drugs:

The Department will provide transportation to and from the testing procedure.

8. EFFECTIVE DATE AND APPLICATION OF AGREEMENT: The procedures and understandings incorporated within the contractual Agreement shall become effective immediately upon acceptance by the Fire District and Union as memorialized by the parties affixing their signatures.

a. Past Records of Drug Involvement and/or Alcohol Abuse: With the exception of those employees who already have signed "Last Chance Agreements", no involvement with drug rehabilitation clinics or positive testing results occurring prior to the effective date of this contractual Agreement shall be referenced by the Fire District in proceedings after the ratification of this Agreement, it being the intent of the parties to provide all employees with clear records. b. Additional Provision: The Fire District shall not implement any procedures, other than referenced herein, involving alcohol and/or drug testing, or the consequences thereof, except with the negotiated agreement of the Union. Any Department rules/regulations

The Department assumes sole responsibility for the administration of this policy and shall be solely liable for any legal obligations and costs arising out of the provisions and/or application of this contractual Agreement relating to drug and alcohol testing. The Union shall be held harmless of the violation of any workers rights arising from the administration of the drug and alcohol testing program.
- f. Changes in Testing Procedures: The parties recognize that during the life of this contractual Agreement, there may be improvements in the technology of testing procedures which will provide for more accurate testing. In that event, the parties will bargain, in good faith, whether to
